

FOR IMMEDIATE RELEASE

TRUE-LOCK LLC, ANNOUNCES FAA PMA CERTIFICATION FOR FIRE DETECTOR SHIELDS

True-Lock LLC, headquartered in Boise, Idaho, is the worlds leading innovator and manufacturer of aviation fastener systems with over 1,500 FAA Certifications, and is the only aviation manufacturer to be awarded FAA STC's for aircraft wheel fastener assembly systems. True-Lock also works with the aviation and aeronautical industries to consult in engineering specification and trouble-shooting design flaws.

Today, True-Lock announces that it has received FAA PMA approval for manufacturing the Fire Detector Shield articles for the Hawker Beechcraft family of King Air Aircraft.
